

Food Ordering Behaviour and Consumer Trends: A Structured Analysis of Choices and Habits

TEAM ID	SWTID-2026-9834
PROJECT TITLE	Food Ordering Behaviour and Consumer Trends: A Structured Analysis of Choices and Habits
MAX MARKS	3 MARKS

6.2 – Data Connectivity

Step 1: Open Tableau

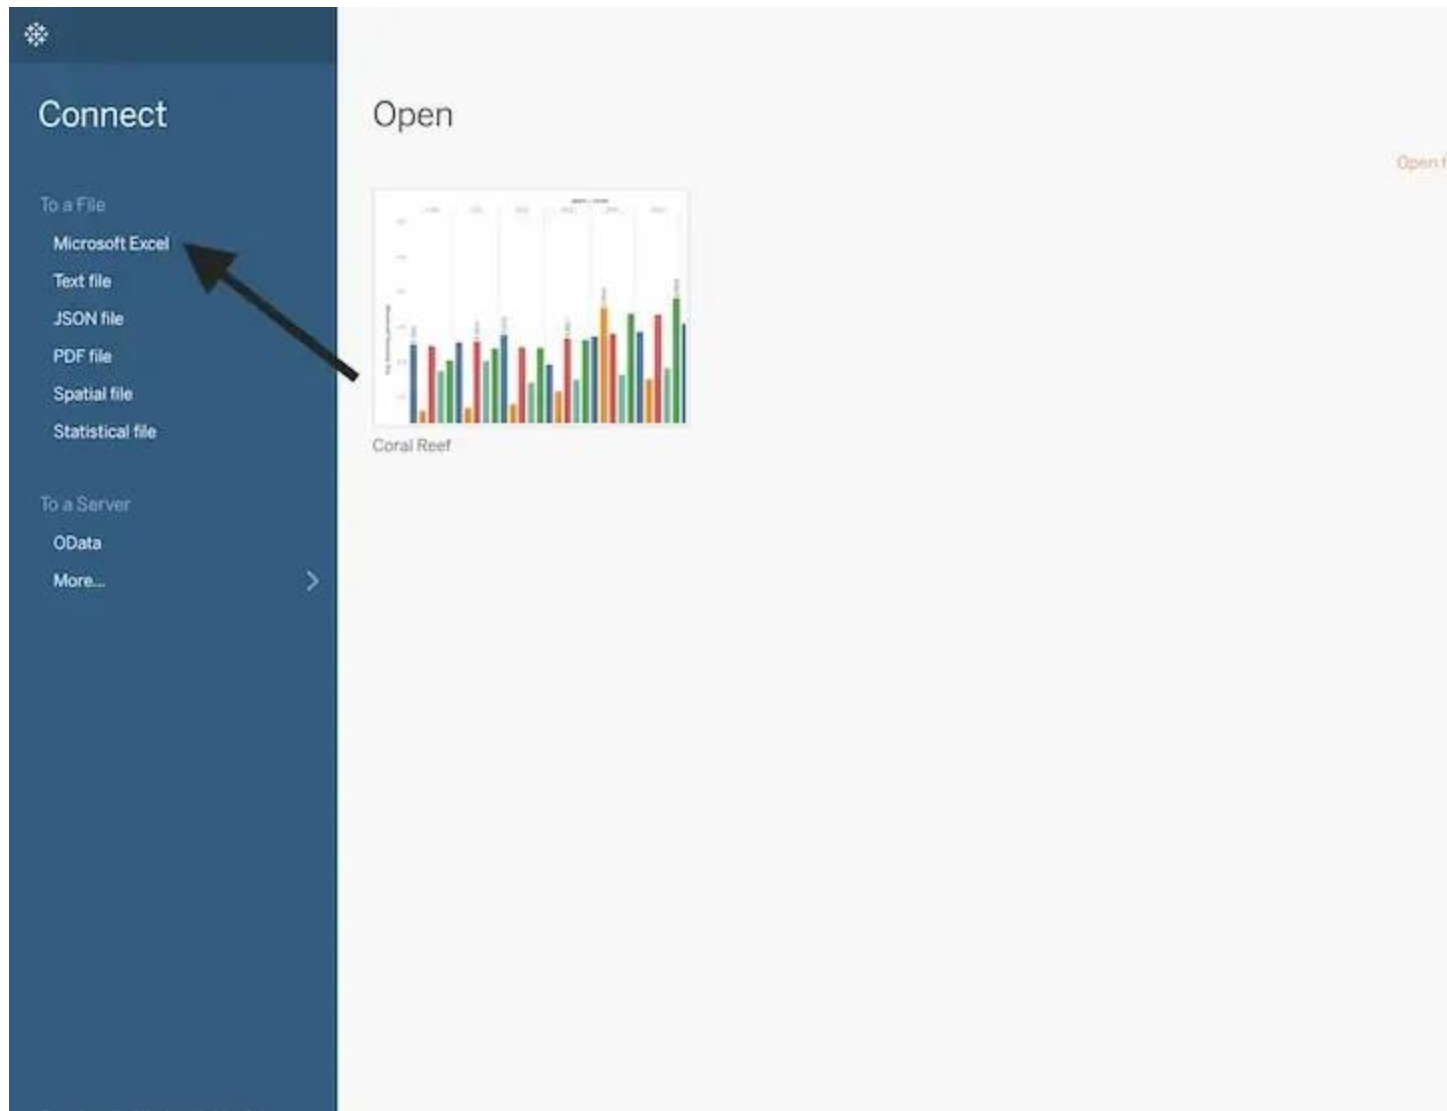

Launch Tableau Desktop. On the left hand side of the start screen, we will see the Connect Panel.

Step 2: Select a Data Source

Under the File section in the Connect Panel, choose the type of data file we want to connect with. For example, to connect to an Excel file, click on Microsoft Excel.

Food Ordering Behaviour and Consumer Trends: A Structured Analysis of Choices and Habits

Step 3: Browse and Load the File

Once selecting MS Excel, a file dialog box will appear and we can select the desired data file. For example here we selected Coral data.xlsx

step 4: View the Data in Tableau

After selecting, Tableau creates a connection with the file and displays our dataset at the bottom of the screen. We can preview the tables, fields and structure of our data.

Step 5: Proceed to the Worksheet

Once the data connection is set up, click on Worksheet to begin analysis. This is where we can start preparing, cleaning (wrangling) and exploring our data.
